MEMORANDUM FOR: Chairman, CSFB Support Committee

SUBJECT: Training Section for Annex C (Support) to the
General Plan—Gold War

1. Attached hereto is a draft for the section of Annex C dealing with training support. Since Annex C is to be, in fact, a directive, and since the limiting factors which affect the capacity of the Agency to fulfill the training support requirements of the Country Appendices and other operational programs will be specific rather than general, it is the view of the Office of Training that these questions should be dealt with in the Training Support Annex itself rather than in Annex C.

2. It should be noted that under Responsibilities in the attached draft the Senior Staffs and Divisions of DD/P are responsible only for those sections of the Training Support Annex which deal with training requirements and scheduling. The Director of Training is responsible for the actual development of the Training Support Annex since its preparation involves training actions and considerations beyond the responsibilities of DD/P which have a material bearing on the Agency's capacity to support the operational program training-wise.

3. I believe this position is sound and may serve as a prototype for the handling of the other DD/P support elements.

FOR THE DIRECTOR OF TRAINING:

 Chief, Plans and Policy Staff
